## Fall 2024

### Sprinkler Fitters U.A. Local 483 Continuing Education Classes

To sign up for CEC Classes, Download and Use the ISAQR App on your smart phone.

Upgrade classes are **RECOMMENDED** 10 hours per year.

All Licensed Journeymen need 30 hours of approved classes every 3 years.

**Confined Space** - This 16-hour worker course teaches workers about the most common hazards found in confined spaces, and about the OSHA standard that addresses these hazards. Participants also learn about safe entry procedures, monitoring principles, entry permits, ventilation, personal protective equipment and the roles of the entrant, attendant, and entry supervisor. This course includes extensive hands-on training in confined space entry and the use of PPE. **Wear HARD HATS, Boots and Work Clothes. CA Approved Course.**

-Monday, September 30<sup>th</sup> 4PM-8PM, Wednesday, October 2<sup>nd</sup> 4PM-8PM, Saturday, October 5<sup>th</sup> 4PM-8PM

**Crane Signaling**- In this 20-hour course, students will review, demonstrate, and become certified crane signal persons as required by OSHA in 29 CFR §1926 along with ASME B30.3 and B30.5. Learning activities include a combination of practice scenarios along with animations and videos to illustrate the standard hand signals, and crane characteristics/limitations. Once a certified signal person, one's performance as an examiner will be observed and evaluated with a written and practical exam. During the final day, students will review the computer-delivered UA Signal Person Practical Exam process including how to initiate, administer, and conclude test sessions. **CA Approved Course.**

-Tuesday, October 15<sup>th</sup> 4PM-8PM, Thursday, October 17<sup>th</sup> 4PM-8PM, Saturday, October 19<sup>th</sup> 8AM-4:30PM, Tuesday, October 22<sup>nd</sup> TEST 4PM-8PM

**ASSE 15010 ITM** - This is a forty (40 hour) course - This class will guide you through the inspection requirements of NFPA 25 and discuss the installation requirements that are not addressed in NFPA 25. It will also include the testing of systems as required by NFPA 25 and best practices for those systems that lack the documentation to ensure that the required tests are performed. Best practices will be covered under the maintenance requirements, including some tips of the trade. At the end of this course, the attendee will be given the opportunity to get a certification for ITM that includes both a written and practical test that goes beyond the NICET certification. This course will consist of 7 (seven) classes and 1 (one) test day. **CA Approved Course.**

-Tuesday, October 15<sup>th</sup> 4PM-8PM, Thursday, October 17<sup>th</sup> 4PM-8PM, Saturday, October 19<sup>th</sup> 8AM-4:30PM, Tuesday, October 22<sup>nd</sup> 4PM-8PM, Thursday, October 24<sup>th</sup> 4PM-8PM, Tuesday, October 29<sup>th</sup> 4PM-8PM  
Wednesday, October 30<sup>th</sup> 4PM-8PM, Saturday, November 2<sup>nd</sup> TEST 8AM-4:30PM

**Aerial Platform**- This is a four (4 hour) class- This course will cover the training that is required by OSHA for the operation of AWP's on the jobsite. A Digital card (valid for 5 years) will be issued upon the completion of the class.
